User Manual

BEKO

Read this manual prior to initial operation of the product!

Dear Customer,

We hope that your product, which has been manufactured in modern facilities and passed through a strict quality control procedure, will give you very good results.

We advise you to read through this manual carefully before using your product and keep it for future reference.

The User Manual will help you use your machine in a fast and safe way.

- Read the User Manual before installing and starting your product.
- In particular, follow the instructions related to safety.
- Keep this User Manual within easy reach for future reference.
- Also read all additional documents supplied with this product.

Remember that this User Manual is also applicable for several other models. Differences between models will be identified in the manual.

This product was manufactured using the latest technology in environmentally friendly conditions.

1 Important Safety Instructions

Read the Instructions carefully and Keep for Future Reference

Important Safety Instructions. Read Carefully And Keep For Future Reference

- When the appliance is operated in the combination mode, children should only use the oven under adult supervision due to the temperatures generated;

- If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person;

- It is hazardous for anyone other than a competent person to carry out any service or repair operation that involves the removal of a cover which gives protection against exposure to microwave energy;

- Liquids and other foods must not be heated in sealed containers since they are liable to explode

- Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use;

- Only use utensils that are suitable for use in microwave ovens

- When heating food in plastic or paper containers, keep an eye on the oven due to the possibility of ignition;

- If smoke is observed, switch off or unplug the appliance and keep the door closed in order to stifle any flames;

- Microwave heating of beverages can result in delayed eruptive boiling, therefore care must be taken when handling the container;

- The contents of feeding bottles and baby food jars shall be stirred or shaken and the temperature checked before consumption, in order to avoid burns;

- Eggs in their shell and whole hard-boiled eggs should not be heated in microwave ovens since they may explode, even after microwave heating has ended;

- The oven should be cleaned regularly and any food deposits removed;

- failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation;

- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

- The temperature of accessible surfaces may be high when the appliance is operating.

- The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervised or instruction concerning use of the appliance by a responsible person for their safety.

- Young children should be supervised to ensure that they do not play with the appliance.

- This appliance is intended to be used in household and similar applications such as:

- Staff kitchen areas in shops, offices and other working environments;

- Farm houses;

- By clients in hotels, motels and other residential type environments;

- Bed and Breakfast type environment

Listed below are, as with all appliances, certain rules to follow and safeguards to assure top performance from this oven:

- Always have the glass tray, roller arms, coupling and roller track in place when operating the oven.

- Do not use the oven for any reason other than food preparation, such as for drying clothes, paper, or any other non-food items, or for sterilizing purposes.

- Do not operate the oven when empty. This could damage the oven.
- Do not use the oven cavity for any type of storage, such as papers, cookbooks, etc.
- Do not cook any food surrounded by a membrane, such as egg yolks, potatoes, chicken livers, etc without first being pierced several times with a fork.
- Do not insert any object into the openings on the outer case.
- Do not at any time remove parts from the oven such as the feet, coupling, screws, etc.
- Do not cook food directly on the glass tray. Place food in/on proper cooking utensil before placing in the oven.
- **IMPORTANT-COOKWARE NOT TO USE IN YOUR MICROWAVE OVEN**
Do not use metal pans or dishes with metal handles.
Do not use anything with metal trim.
Do not use paper covered wire twisties on plastic bags.
Do not use melamine dishes as they contain a material which will absorb microwave energy. This may cause the dishes to crack or char and will slow down the cooking speed.
Do not use Centura Tableware. The glaze is not suitable for microwave use. Corelle Livingware closed handle cups should not be used.
Do not cook in a container with a restricted opening, such as a pop bottle or salad oil bottle, as they may explode if heated in a microwave oven.
Do not use conventional meat or candy thermometers. There are the thermometers available specifically for microwave cooking. These may be used.
- Microwave utensils should be used only in accordance with manufacturer's instructions.
- Do not attempt to deep-fry foods in this oven.
- Please remember that a microwave oven only heats the liquid in a container rather than the container itself. Therefore, even though the lid of a container is not hot to the touch when removed from the oven, please remember that the food/liquid inside will be releasing the same amount of steam and/or spitting when the lid is removed as in conventional cooking.
- Always test the temperature of cooked food yourself especially if you are heating or cooking food/ liquid for babies. It is advisable never to consume food/liquid straight from the oven but allow it to stand for a few minutes and stir food/liquid to distribute heat evenly.
- Food containing a mixture of fat and water, e.g. stock, should stand for 30-60 seconds in the oven after it has been turned off. This is to allow the mixture to settle and to prevent bubbling when a spoon is placed in the food/liquid or a stock cube is added.
- When preparing/cooking food/liquid and remember that there are certain foods, e.g. Christmas puddings, jam and mincemeat, which heat up very quickly. When heating or cooking foods with a high fat or sugar content do not use plastic containers.
- Cooking utensil may become hot because of heat transferred from the heated food. This is especially true if plastic wrap has been covering the top and handles of the utensil. Potholders may be needed to handle the utensil.
- To reduce the risk of fire in the oven cavity:
 - a) Do not overcook food. Carefully attend microwave oven if paper, plastic, or other combustible materials are placed inside the oven to facilitate cooking.
 - b) Remove wire twist-ties from bags before placing bag in oven.
 - c) If materials inside the oven should ignite, keep oven door closed, turn the oven off at the wall switch, or shut off power at the fuse or circuit breaker panel.

2 Technical Specifications of Your Appliance

- 1. Control Panel
- 2. Door Safety Lock System
- 3. Glass Tray
- 4. Roller Ring
- 5. Oven Window
- 6. Oven Air Vent
- 7. Grill rack

Power consumption	: 240 V~50 Hz, 1450 W
Output	: 900 W
Grill Heater	: 1200 W
Convection	: 1350 W
Operating Frequency	: 2,450 MHz
Outside Dimensions (mm)	: 520 x 530 x 300
Oven Cavity Dimensions	: 350 x 372 x 232
Oven Capacity	: 30 litres
Uncrated Weight	: Approx. 19kg

3 Radio Interference

Microwave oven may cause interference to your radio, TV, or similar equipment. When interference occurs, it may be eliminated or reduced by the following procedures.

- a) Clean the door and sealing surface of the oven.
- b) Place the radio, TV, etc. as far away from your microwave oven as possible.
- c) Use a properly installed antenna for your radio, TV, etc. to get a strong signal reception.

4 Installation

1. Make sure all the packing materials are removed from the inside of the door.
2. Inspect the oven after unpacking for any visual damage such as:
 - Misaligned Door
 - Damaged Door
 - Dents or Holes in Door Window and Screen
 - Dents in Cavity
 - If any of the above are visible, DO NOT use the oven.
3. This Microwave Oven weighs 19 kg and must be placed on a horizontal surface strong enough to support this weight.
4. The oven must be placed away from high temperature and steam.
5. DO NOT place anything on top of the oven.
6. DO NOT remove the turn -table drive shaft.
7. As with any appliance, close supervision is necessary when used by children.

WARNING - THIS APPLIANCE MUST BE EARTHED.

1. The plug socket should be within easy reach of the power cord
2. This oven requires 1.5 KVA for its input consultation with service engineer is suggested when installing the oven.

CAUTION: This oven is protected internally by ac 250V, 10 Amp Fuse.

IMPORTANT

The wires in this mains lead are coloured in accordance with the following code:

Green-and-yellow : Earth

Blue : Neutral

Brown : Live

As the colours of the wires in the mains leads of the appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured greenand-yellow must be connected to the terminal in the plug which is marked with the letter E or by the earth symbol coloured green of green-and-yellow.

The wire which is coloured blue must be connected to the terminal which is marked with the letter N or coloured black. The wire which is coloured brown must be connected to the terminal which is marked with the letter L or coloured red.

ATTENTION: The following steps are for the Microwave Oven models with the Built-in Trim Kit Frame Only.

1. After taking all the accessories out of the microwave oven, turn the microwave oven over on its back and keep the base of the microwave oven facing towards you.

2. Remove the adjustable feet (Fig. No. 2) from the plastic bag and screw them into the holders (Fig. No. 1), one by one.

3. Once all 4 feet are fitted, turn the microwave oven back over onto its feet to check if the adjustable feet are level. If the microwave oven is unstable, adjust the feet by screwing them up or down accordingly.

5 Operation Instruction

Computer Control Panel

1. Display Window
2. Conve
3. Grill
4. Micro
5. Combi
6. Auto Menu
7. Clock/Time
8. Pause/Cancel
9. Start
10. Defrost/Time Setting

1. Single Button Heating

Only with a single press of a button, you can start simple cooking, it is very convenient and quick to heat a glass of water etc.

Example: To heat a glass of water

- a) Put a glass of water onto the glass turntable, and close the door.
- b) Press the button “◊”, the microwave-oven will work on 100% power for 1 minutes.
- c) You will hear 5 beeps when cooking is complete.

2. Microwave Heating

This function has two options.

- 1) Quick microwave heating (100% power)

Example: to heat food on 100% power for 5 minutes

- a) Rotate the knob “Time setting” to until “5:00” displayed.
- b) Press “ ”.

- 2) Manual-operation microwave heating

Example: To heat food on 70% power for 10 minutes

- a) Press “≡” button, select “70%” power;
- b) Rotate the knob “Time setting “ to until “10:00” displayed.
- c) Press “ ◊ ”.

There are 5 power levels and the longest microwave heating time is 60 minutes.

Touching times	Microwave power	Display
1	100%	P100
2	70%	P70
3	50%	P50
4	30%	P30
5	10%	P10

3. Auto weight defrost

You only need to select the food's weight, it can help you to automatically adjust the power and time.

Example: Defrost 500g frozen meat

a) Select defrost function by rotating left the knob "Auto defrost" until "500" display.

b) Press "◊".

The weight of food must be less than 2000g.

5. Auto-menu

You only need to select the food type and weight, it will help you to automatically adjust the power and time.

Example: Auto cooking 400g meat.

a) Press "📖" button to choose A-3.

b) Rotate the knob "Time setting" to set weight 400g.

c) Press "◊".

5. Grill

You may press "🔥" button to select such functions: (the longest cooking time is 60 minutes).

Pattern 1: 85% grill power, display G-1

Example: cooking food with grill for 20 minutes

a) Press "🔥" until the LED displayed "G-1".

b) Set cooking time "20:00"

c) Press "◊".

When grilling, the food isn't heated by microwave, heat is radiated from the metal heater at the top of the oven. When grill is working, the cooking time has 2 stages, After the 1st half of the cooking, the program will automatically pause and sound 2 beeps, indicating you to open the oven and turn food over, after turning over, close the door, press "◊" button, the cooking will continue for the 2nd half. If you do not want to turn the food over, the oven will re-start after 1 min pause.

Menu Weight (g) Touching Times	A-1 Reheat	100	150	200	250	300	350	400	450	500	600
	A-2 Potata	200	300	400	500	600	700	900	1100	1300	1500
	A-3 Meat	100	200	300	400	500	600	700	800	1300	1500
	A-4 Pizza	100	200	250	300	350	400	450	500	550	600
	A-5 Fish	100	200	300	400	500	600	700	800	900	1000
	A-6 Chicken	200	400	600	800	1000	1200	1400	1600	1800	2000

6. Combination Cooking

This appliance offers you a choice of three methods of combination cooking.

Option 1: Convection + Microwave (230C convection + 40% microwave), display "C-1" This is ideal for roasting and baking etc.

Option 2: Grill and Convection (50% grill + 230°C convection, display "C-2") For fast crisping etc.

Option 3: Grill and Microwave (45% grill + 55% microwave), display "C-3" For fast grilling etc.

Example: Cooking food using option 3 for 30 minutes.

a) Press "🔥📖" button to select "C-3"

b) Set cooking time for 30 minutes

c) Press "◊"

7. Convection Cooking

This oven can be used as a convection oven and can be programmed to reach a desired temperature for pre-heating. The temperature setting will default to 230 °C, you may press “” button to set the different temperature.

Example: To set the oven to pre-heat to 200 °C.

- a) Press the “” button to choose 200 °C temperature
- b) Press “”.

When the pre-heating is completed, the appliance will stop work and emit 2 beeps to remind you to place the food in the oven. Set the convection cooking temperature and time and start cooking. The longest preheating time will be 30 minutes.)

II Convection function

Example: Convection cooking, To set the pre-heated oven to cook for 20 minutes at 200 °C

- a) Press “” button to choose convection cooking, press “” button to choose 200 °C temperature.
- b) Set cooking time for 20 minutes
- c) Press “”.

8. Clock

The oven can be used as a clock. Example: to input current time 16:30

- A) Press “”, the clock symbol will flash in display. Rotate the “Time setting” knob to set “16:00”.
- B) Press “” again, rotate the “Time setting” knob to set “16:30”
- C) Press “” again, the clock setting is finished, the time start to go on working.

9. Timer

The timer function helps the microwave oven begin automatic cooking at set time, and automatically stop operation after finishing cooking. (You should set the clock before using timer function).

Example: the current time of microwave oven is 16:30, to set cooking at 18:15 on 70% power for 10 minutes.

- a) Press “” and set time to 18:15 (same procedure as setting clock).
- b) Press “” to set 70% power.
- c) Input cooking time 10 minutes by rotating the knob “Time Setting”.
- d) Press “”.

If you don't set power and cooking time (omit B and C steps), and directly press “” button, the microwave oven will work only as a clock, there will be 10 beeps at 18:15, but no other function will run.

10. Child-safety lock

To activate the child safety lock, press “” and “” button at the same time for 2 seconds. Press “” and “” button, at the same time for 2 seconds again, it will unlock this function.

11. Pause/Cancel

- a) In the course of operation, pressing “” button will stop operation.
- b) If any program was set before pressing start, pressing this button will cancel all the set program.

6 Care Of Your Microwave Oven

- 1.** Turn the oven off and remove the power plug from the wall socket before cleaning.
- 2.** Keep the inside of the oven clean. When food splatters or spilled liquids adhere to oven walls, wipe with a damp cloth. The use of harsh detergent or abrasives is not recommended.
- 3.** The outside oven surface should be cleaned with a damp cloth. To prevent damage to the operating parts inside the oven, water should not be allowed to seep into the ventilation openings.
- 4.** Do not allow the Control Panel to become wet. Clean with a soft, damp cloth. Do not use detergents, abrasives or spray-on cleaners on the Control Panel.
- 5.** If steam accumulates inside or around the outside of the oven door, wipe with a soft cloth. This may occur when the microwave oven is operated under high humidity conditions and in no way indicates malfunction of the unit.
- 6.** It is occasionally necessary to remove the glass tray for cleaning. Wash the tray in warm sudsy water or in a dishwasher.
- 7.** The roller ring and oven cavity floor should be cleaned regularly to avoid excessive noise. Simply wipe the bottom surface of the oven with mild detergent, water or window cleaner and dry. The roller ring may be washed in mild sudsy water or dish washer. Cooking vapour collect during repeated use but in no way affect the bottom surface or roller ring wheels. When removing the roller ring from cavity floor for cleaning, be sure to replace it in the proper position.
- 8.** Remove odors from your oven by combining a cup of water with the juice and skin of one lemon in a deep microwaveable bowl. Microwave for 5 minutes. wipe thoroughly and dry with a soft cloth.
- 9.** When it becomes necessary to replace the oven light, please consult a dealer to have it replaced.

Beko Manufacturers Guarantee

Congratulations on purchasing a quality Beko product. Beko automatically provide you with a 2 year Manufacturers Guarantee, covering parts and labour for servicing within the geographical limits of Australia and New Zealand.

General Terms and Conditions

For Australian Consumers

This guarantee is an extra benefit and does not affect your legal rights. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

For New Zealand Consumers

This guarantee is an extra benefit and does not affect your legal rights. Nothing in this guarantee purports to modify or exclude the conditions, guarantees and undertakings, and other legal rights, under the New Zealand Consumer Guarantees Act and other laws, except in those circumstances contemplated by section 43(2) of the New Zealand Consumer Guarantees Act.

Beko Guarantee

The Beko Manufacturers' Guarantee provides additional protection for your Beko Product, and it identifies a preferred approach to resolving product claims which will allow for a quick and simple process for all parties, subject to our terms and conditions below.

To enable us to assist you in the most expedient way please contact us by phoning the Toll free number (relative to your country of residence) as listed below. Please ensure you refer to your user manual and in particular the section headed "**Recommended Solutions for the problems**" before phoning.

The commencement date of this guarantee starts on the day of purchase and proof of purchase must be supplied to the Beko Service Centre prior to commencement of any guarantee work.

Terms and Conditions

Beko Australia and New Zealand Pty Ltd guarantees to the original purchaser to repair, or at its option replace, without charge to the owner for any part which is not of 'acceptable quality' within two years of date of purchase.

"No Lemon Guarantee" * if the product fails more than 2 times during the Guarantee period due to the same type failure caused by the same part, we will automatically replace the product with an equivalent product free of charge.

Food Spoilage*

If your product is a fridge or freezer, we will reimburse you for food which due to a valid fault as per our guarantee is spoiled; reimburse you as per the benefits below:

Up to 200 Litre	\$100.00
>200 Litre - 400 Litre	\$200.00
>400 Litre - 600 Litre	\$300.00
>600 litre	\$350.00

* Subject to a valid claim under the terms and conditions of this Guarantee

To be eligible for this Guarantee the product must be purchased from an Authorised Reseller in Australia or New Zealand.

What is not covered under this Guarantee

1. Any service calls in which the problem is found not to be caused or related to any defect in the Product. In this instance, the cost of the service call will be charged to you. Examples (but not limited too) of no product fault listed below:
 - a. Correcting the installation, e.g. levelling of product, adjustment of drain crossed or kinked hoses, leakage of hoses if incorrectly fitted, removal of transit bolts (front loading washers), noises due to water hammer and/or power supplies.
 - b. Replacing fuses or correcting house power wiring or house plumbing issues.
 - c. Failure due to incorrect set up or requiring instructions normally covered in user manual.
 - d. Blocked pumps, removal of foreign objects/substances from the washing machine, e.g. socks, bra wires, dirt etc.
 - e. Normal noise or vibration
 - f. Infestation of pests, insects or vermin

2. This Guarantee does not cover damage caused by:
 - a. Misuse or abuse of the Beko Product
 - b. Accidental damage of any kind
 - c. Rust and Corrosion where the product is located within a corrosive environment
 - d. Discolouration of burners or trivets on gas cooktops or chrome surrounds
 - e. Incorrect operation or not following the operation instructions as stated in the user manual.
 - f. Improper installation
 - g. Failure to clean or improper cleaning
 - h. Use of incorrect non – compliant electrical or gas connections
 - i. External sources including but not limited to electrical interference, power surges or voltage fluctuations.
 - j. Any loss caused by civil commotion
 - k. Any loss caused from extreme events of nature including but not limited to, flood, cyclone, severe storm and earthquake
 - l. Use of non genuine/authorised parts
 - m. Any repair or other work carried out on the Beko product other than by an Authorised Beko Service Personnel.

3. This Guarantee does not cover costs associated with replacing and servicing of consumable parts. E.g. lamps & bulbs, filters

This Guarantee has been designed for Products used in normal domestic environment. Our products are not designed for commercial use. Any commercial use may affect this Product's Guarantee.

Service under this Manufacturer's Guarantee is provided by the Beko Australia and New Zealand Authorised Repairer.

The Guarantee is provided by Beko Australia and New Zealand Pty Ltd (ABN: 49 152 055 162) of 55 Blanck Street, Ormeau, QLD Australia 4208, P O Box 354 Ormeau QLD Australia 4208.
